Since 1984, Goscor Lift Trucks has been supplying the materials handling market with state-of-the-art forklift products and solutions. Quality defines class and ultimately results in lower cost of ownership. In partnership with our suppliers, we continually strive to be at the forefront of equipment technology, bringing you the latest market trends across the globe.

VISION To make a meaningful difference in our world, every day.

MISSION To improve the welfare of all our stakeholders and society.

GROUP VALUES Trust, Integrity, Passion, Excellence and Empowerment – play a huge part in successfully achieving our objectives. The culture starts with top management and moves all the way through to the teams on the floor.

B-BBEE LEVEL 3 Goscor Lift Trucks concurs fully with the government's sentiments regarding the importance of Black Economic Empowerment as critical underpinning for the stability of the South African democracy. We currently hold Level 3 rating and it is a continuous priority for us to improve on this status.

Bendi

The world's largest range of articulated forklift trucks for very narrow aisles. With the benefit of over 30 years of research, development, and knowledge, the current Bendi range has something to suit almost any site, layout or budget. The Bendi range works in the narrowest aisles, the highest racking bays, the most demanding 24-hour operations of any articulated forklift truck.

CROWN

Crown Equipment Corporation lift truck manufacturers is the world leader in the manufacturing of electrical materials handling equipment and has been in partnership with Barex since 194, supplying the South African market with quality equipment and excellent back-up service.

DOOSAN

Manufactured in Korea and imported by Barex, Doosan's extremely robust forklift equipment has many features benefiting operators and owners alike. With a range comprising of diesel and gas forklifts variants from 1.5 tons through to 25 tons and an electric forklift range including reach truck, 3 and 4 wheel counterbalance trucks from 1 ton up to 5 tons, it is evident that there is a Doosan infracore forklift to suit all your requirements. Africa Tough for over 30 years.

DEC tow tractors are perfectly suited for the toughest applications and provide towing and transporting solutions with a load capacity 2t to 25t, for both the industrial and commercial sectors. Manufactured in Italy, the DEC tractor range are built with operator comfort in mind, offering excellent ergonomics, and walk-on/walk-off platforms standard on all 2t to 7t models, with other options available across the range.

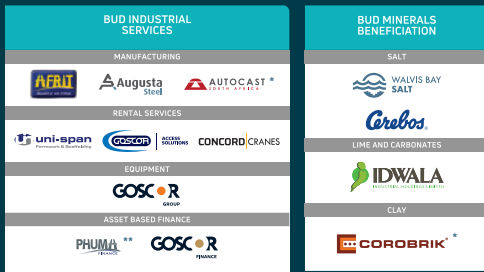

SUNLIGHT
POWER IS KNOWLEDGE
